NOW, THEREFORE, the declarant hereby declares that the real property (Foxtrace Subdivision,) as hereinabove described is and shall be held, pledged, transferred, sold and conveyed subject to the restrictive and protective covenants as set forth hereinbelow:

ARTICLE I

PROPERTY: The subdivision identified as Foxtrace Subdivision, Section 4, Phase 5, lots 625-637, 667, and 699-708 shall be limited to single family dwellings: no duplexes, triplexes or quad-plexes. No lot shall have an impervious area of ground cover (as more particularly defined by Division of Environmental Management for the State of North Carolina) of more than three thousand (3,000) square feet. When two lots are combined per Article VI, then the maximum impervious area shall be six thousand (6,000) square feet. The allowable impervious area per lot as stated above shall include any built upon area therein between the edge of pavement and the right-of-way. These covenants shall define impervious area to include right-of-ways, paved right-of-ways, structures, pavement, walkways or patio of brick, stone or slate, not including wood decking.

ARTICLE II

LAND USE AND BUILDING TYPE: No numbered lot shall be used except for "single family residential purposes." "Single family residential purposes" is defined as a family unit related by blood or marriage as is customary in the area. A single family may consist of a single individual but shall not consist of units made up of a number of unrelated by blood or marriage individuals, whether adults or minors under the care of others wherein there is provided family care for usually two or more unrelated persons. A single family residential unit shall not be used nor shall residential purposes as herein set out be defined as covering the following types of uses: fraternities, sororities, family care homes, boarding homes, or any type residence in which a person or persons' care is paid for by himself or herself or others. No structure shall be erected, placed, altered or permitted to remain on any such lot other than one detached single family dwelling as defined above not to exceed two and one-half stories in height and such outbuildings as may be reasonably appurtenant to the dwelling, provided that the same are constructed in line with the general architectural design and construction standards used in the dwelling itself. All construction shall be custom type construction built on the lot

for residential or any other purposes. No mobile homes, doublewides or pre-manufactured homes or any unit requiring a Division of Motor Vehicles Certificate of Title shall be placed or constructed on any numbered lot in the subdivision hereinabove described. This covenant shall not be construed as prohibiting the use of a new single family detached dwelling as a model home for sales purposes.

ARTICLE III

**EASEMENT RESERVATION:** The grantor reserves for itself as developer, its successors or assigns, in that capacity, an easement, 10 feet in width, 5 feet of each side of the side lot line of each numbered lot as herein in Article VI determined that adjoin other number lots and 10 feet in width along all streets and back lot lines, and right at any time in the future to grant a right-of-way under over and along said easement along the side, rear and front property lines of each and every lot in the subdivision described herein, for the installation and maintenance of poles, lines, conduits, pipes and other equipment necessary to or useful for furnishing of all utilities including electric power, gas, telephone service, Cable TV, drainage, or other utilities including water and sewer service. Within these easements, no structure, fence, planting or other materials shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities or which may change the direction of flow of drainage channels in the easements, or which may obstruct or retard the flow of water through drainage channels in the easements. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible. It is specifically provided in these areas or any area designated for utility easements, that any fence constructed over these areas shall be constructed in such a manner and maintained in such a way as to allow ingress and egress for said utilities.

Where corner lots occur with adjacent lots sharing the same right-of-way line, no fence in excess of three feet in height shall be constructed along the right-of-way of the corner lots or nearer the right-of-way than the front building line of the adjacent lots. It is specifically provided in these areas or any area designated for utility easements, that any fence constructed over these areas shall be constructed in such a manner and maintained in such a way as to allow ingress and egress for said utilities.

ARTICLE XII

**SIGNS:** No sign of any kind shall be displayed to the public view on any lot except one professional sign of not more than one square foot parallel to the building line, one sign of not more than three square feet advertising the property for sale or rent, or signs used by a builder to advertise the property during the construction and sale period.

No trailer, mobile home camper or like vehicle shall be parked on any lot at any time for any purpose unless it is parked behind the main dwelling structure or placed inside the carport or garage.

ARTICLE XVI

**TERM:** These covenants are to run with the land and shall be binding on all parties and all persons claiming under them for a period of twenty-five (25) years from the date these covenants are recorded, after which time said covenants shall be automatically extended for successive periods of ten years unless an instrument signed by a majority of the owners of the lots has been recorded, agreeing to change said covenants in whole or in part.
